Alex and his crew are top-notch. They are very professional and disciplined. They were on site at 8:00 AM every day and are very organized. The fences are absolutely perfect. This was a job for fences of five adjacent neighbours and the four-person team carried out the work efficiently and flawlessly. They did a fantastic job! So refreshing compared to the many contractors we hired in the past.

What a great team Deck crew is! We hired them to turn our sorry, crumbling third floor deck into the current paradise that it is. They were willing to work with us on the best build method possible with the least amount of intrusion considering this is a condo shared element. I would hire them again in a second.

Completely satisfied customers here. Alex and the crew redid the complete deck, replacing a very old and aged existing one. We solicited 4 quotes, of which Deck Crew was the most competitive and significantly better value for the designs offered. The proposal was complete in terms of layout, design and detail, which was a major factor. Alex worked us during the quote and design phase, as well as over the complete build to clear up any issues that arose to make sure the final result was right. Most importantly, Alex and his crew were doing the work. Some operations subcontract out which can lead to issues – not here and the quality of the final product were all excellent.

Our neighbour had a great experience using Alex and his team for a project last year that we decided to use them collectively again for a cedar fence installation. I am very happy we did as the fence looks incredible! They even worked around my annoying request to not step on emerging daffodils. Alex and his crew were efficient, friendly and highly knowledgeable. We would highly recommend.

**Service:** Wood fence installation

Being a realtor, I have known few deck builders and had personal experiences. Since Alex and his crew did this job at my in laws new place, I have been recommending Alex as deck specialist. Very professional & experienced, provides lot of great options with design ideas & materials for different budgets, gets it done on time and quality of his craftsmanship is excellent. Highly recommend Alex and his team!

I could not write more positive things about the Deck Crew. I initially needed a new fence - and for starters they had a very competitive quote. I have done a lot of work on my house over the last few years and this was the first crew that I dealt with that started the job earlier than expected, finished earlier than expected and came in exactly on budget. I loved the fence so much I got convinced to re-do my deck - they even helped me install a hot tub. I could not speak more highly of these guys - the professionalism was the best I've dealt with in Toronto. 5 stars all around

Alex and his team were awesome and we couldn't be happier with our new deck. It looks fantastic and given the quality far exceeds what is typically available, we are sure to be enjoying it for many years. In addition, they were super creative in building a unique tie-in for our hottub which also allows maintenance.
